'mechanism design

May 17th, 2020 -
mechanism design
is a field in
economics and game
theory that takes
an objectives
first approach to
designing economic
mechanisms or
incentives toward
desired objectives
in strategic
settings where
players act
rationally because
it starts at the
end of the game
then goes
backwards it is
also called
reverse game
theory it has
broad applications
from economics and
politics markets'
