June 3rd, 2020 - by
definition black and
white photography is a
special category of
photography the phrase
black and white
photography arose only
after the invention of
color photography
previously we spoke
simply of photography
which depicted the

nuances of color
brightness found in
reality in achromatic
gray scale gradations
including the extreme
values of black and
white"**black amp white

May 6th, 2020 - the
basic theory behind
black and white printing
is really very simple the
photographic paper like
photographic film is
sensitive to light the
paper is placed under
an enlarger and the
negative is loaded in
the enlarger the
enlarger simply projects
the image on the
negative onto the paper
in the same way a slide
projector projects an
image'
